Asignación de la tarea en MongoDB Compass

The screenshot displays the MongoDB Compass web interface. On the left sidebar, the database structure is shown: Local > 9 DBS > 12 COLLECTIONS > dbsebastiantibaquirascrumboard > boards. The main panel shows the 'boards' collection with 1 document. The document is displayed in JSON format:

```
{
  "_id": ObjectId("611b61d983abd4cfd38bdc"),
  "userId": ObjectId("611433884fa92629829812"),
  "name": "Crear diseño",
  "description": "Descargar Bootstrap en el proyecto",
  "taskStatus": "to-do",
  "date": 2021-08-17T16:30:53.181+00:00,
  "__v": 0
}
```

The interface includes a filter bar with the text '{ field: 'value' }', a 'FIND' button, and a 'RESET' button. The status bar at the bottom indicates 'Displaying documents 1 - 1 of 1' and a 'REFRESH' button.
